

Dr. Abdullah Sacid ÖRENGÜL

THE SECURITY OF ENERGY SUPPLIES BETWEEN TURKEY AND THE EUROPEAN UNION – THE CASE OF RENEWABLE ENERGY

CONTENTS

PREFACE.....	VII
ABBREVIATIONS	XVII
CHAPTER 1	1
1. Introduction and Research Framework.....	1
1.1. Introduction.....	1
1.2. Statement of the current situation.....	1
1.3. Research objectives	3
1.4. Research questions	3
1.5. Concepts discussed	4
1.5.1. The security of energy supply	4
1.5.2. Regulation and energy agencies.....	13
1.5.3. The case for renewable energy	15
1.6. Research methodological framework	19
1.6.1. Legal research and analysis	19
1.6.2. Institutional and academic document research	20
1.7. Significance of the research.....	20
1.8. Limitations of the research	21
1.9. General content.....	22
CHAPTER 2	27
2. Energy Regulation, Renewable Energy and Energy Agencies at the International Level	27
2.1. Introduction.....	27
2.2. The international regulations of the energy market	29
2.2.1. The role of UN specialized agencies	30
2.2.2. Law and treaty limitations.....	32

2.2.3. International case law	34
2.3. The necessity of renewable resources.....	40
2.3.1. “Renewable energy”	42
2.3.2. The movement toward renewable energy	43
2.3.3. “Renewable energy” regulation challenges and linkages	45
2.3.3.1. General challenges.....	45
2.3.3.2. Cost and pricing barriers.....	47
2.3.3.3. Key rules and regulations.....	48
2.3.3.4. Subsidies.....	49
2.3.3.5. The power barrier.....	51
2.4. Energy agencies and regulation	53
2.4.1. International Renewable Energy Agency (IRENA) and its history	56
2.4.1.1. The competence of IRENA.....	58
2.4.1.2. IRENA and energy transition	60
2.4.1.3. IRENA: limitations and possibilities.....	63
2.4.2. International Energy Agency (IEA)	66
2.4.2.1. Historical background	66
2.4.2.2. The impact of OPEC	69
2.4.2.3. The exceptional situation of Norway and the European Community (EC)	71
2.4.2.4. The IEA establishment process and the Energy Coordination Group	72
2.4.2.5. The agreement on an International Energy Program (IEP) and a new voting system.....	73
2.4.2.6. The relationship between OPEC and the IEA	74
2.4.2.7. The relationship between IRENA and the IEA	75
2.5. The EU’s Russian energy relations.....	76
2.5.1. The historical importance of Russia for the security of supply to the EU	78
2.5.2. The Energy Charter Treaty.....	83

2.5.3. International Energy Charter: modernization process	85
2.5.4. The trade agreement between the EU and Russia	87
2.5.5. The relationship between the EU-Ukraine and Russia.....	89
2.5.6. The relationship between Russia and other countries.....	93
2.6. Conclusion	98
CHAPTER 3	103
3. European Union-Regulation of Energy Markets.....	103
3.1. Introduction.....	103
3.2. The historical development.....	107
3.2.1. The crucial importance of coal	110
3.2.2. The position of nuclear energy	112
3.2.3. The role of the European Economic Community (EEC).....	115
3.2.4. The lessons learned from history	116
3.3. Overall structure	117
3.4. The creation and establishment of an energy policy under the EEC.....	118
3.5. The provisions of the Lisbon Treaty on energy.....	119
3.5.1. The OPAL case - the concept of solidarity.....	123
3.5.2. The energy transition and renewable energy targets.....	126
3.5.3. The concept of Energy Union.....	129
3.6. The role of the EU institutions	131
3.6.1. The European Parliament	131
3.6.2. The European Commission.....	133
3.6.3. The Council of the European Union	134
3.6.4. The role of the Court of Justice of the European Union..	135
3.7. The European Union energy agencies.....	136
3.7.1. The competence of agencies.....	137
3.7.2. Supranational governance prior to ACER.....	140
3.7.3. The Agency for the Cooperation of Energy Regulators (ACER).....	142
3.7.3.1. The main functions of ACER.....	144

3.8. The current position	148
3.8.1. EU level challenges.....	149
3.8.2. Balancing competing and conflicting policy objectives...	151
3.8.3. Regulatory issues: certainty, coherence and division of powers.....	153
3.9. The EU's external energy policy, the concept of solidarity	156
3.10. Conclusion	160
CHAPTER 4	165
4. Turkey: The Regulation of Energy Markets	165
4.1. Introduction.....	165
4.2. The historical development of Turkey's electrical and energy market	168
4.2.1. First term: the establishment of the electricity market	170
4.2.2. Second term: the commencement of partial liberalization and privatization.....	175
4.2.2.1. Introduction.....	175
4.2.2.2. The enactment of specific legislation regarding electricity privatization	176
4.2.2.3. A critical approach of Law no. 3096 on the authorization for the generation of electricity	179
4.2.2.4. The role of the judiciary	182
4.2.3. Third term: the period of liberalization	188
4.2.4. The security of supply concerns	193
4.3. Turkey: the energy market, partners and relations	197
4.3.1. The main actors, legislation and structures	200
4.3.1.1. Introduction.....	200
4.3.1.2. The establishment of independent administrative authorities (IAA)	201
4.3.2. The Turkish Energy Market Regulatory Authority (EMRA)	206
4.3.2.1. The historical development of EMRA.....	206

4.3.2.2. The legal status of EMRA	207
4.3.2.3. The role of EMRA in the Turkish energy market ...	209
4.3.2.4. The relationship between EMRA and other institutions – finding the balance	211
4.3.2.5. The Ministry of Energy and EMRA	213
4.3.3. The Ministry of Energy and Natural Resources (The Ministry of Energy)	218
4.3.4. The Energy Markets Management Incorporation (EPIAS)	224
4.4. Turkey’s renewable energy policy and challenges	226
4.4.1. Limited legal scope toward renewable resources	231
4.4.2. Relationship with ministries	232
4.4.3. Energy agency’s lack of independence	234
4.4.4. Social resistance	235
4.4.5. Bureaucratic barriers	237
4.4.6. The control by the judiciary: case law	238
4.4.7. The role of small-scale renewable energy production	243
4.5. The laws and policy documents with reference to current regulations relating to the security of supply	245
4.5.1. The Turkish Mining Law (Law no. 3213)	245
5. Conclusion	249
CHAPTER 5	251
5. General Conclusion	251
BIBLIOGRAPHY	265
